

AirPuris

ALL-IN-ONE AIR & SURFACE STERILIZER

Since the emergence of the biggest pandemic in the last decade, fighting viruses and bacteria has been a major focus for the entire world, especially in confined spaces where people stay close to each other.

Introduction

The AirPuris has been developed for air and surface cleaning based on the latest technology with photocatalysis in combination through of UV-C light and a patented titanium screw.

A woman with long brown hair is lying on a white leather sofa. She is wearing a white long-sleeved shirt and light blue denim jeans with a tear at the knee. She is smiling and looking towards the right. The background is a plain white wall.

UVIX's mission is to provide UV-C applications that contribute to a safer environment.

Air & surface solution

Clean air, safe space

The risk of poor air quality and contamination is higher in confined spaces. AIRPURIS-E1 is an ALL-IN-ONE air purifier and sterilizer. It purifies, deodorises, breaks down volatile gases and sterilizes.

The AirPuris cleans the air and surfaces up to 99.97% free of bacteria and viruses. Photocatalysis works with a designed configuration of UV-C light, air and a titanium catalysator.

UV-C + photocatalysis

= economically efficient & sustainable

Purification

(Ultra)fine dust

Deoderization

Life odor

VOC de-
composition

Toxic gas

Sterilization

Bacteria & virus

An aerial photograph of a dense, lush green forest. The trees are packed closely together, creating a textured canopy of various shades of green. The lighting is bright, highlighting the individual crowns of the trees.

Eco-friendly technology

Harmless for humans

Specifications

AirPuris E1

Product specification	Model name	AirPuris E-1
	Size	350*110*125mm
	Weight	2,5 kg
	Noise diagram	35dB
	Air purification capacity	30m3/hour
Technical mechanism	Spiral photocatalytic filter	Maximize photo catalyst efficiency
	UV technology	Sterilization / Polarization through UV-C wavelength
	Negative ion	3,000,000 ions/cc
	Simultaneous purification, deodorization, VOC decomposition, sterilization	
Product feature	Color	Silver
	Internal structure	Stainless material
	External case	Premium design using aluminum material
	Stylish design
